Annual plumbing system inspection:

This inspection covers all sinks, tubs, showers, drains, water lines, angle stops, washer box, toilets, water heater, and hose bibs. We will inspect all items for leaks, soon-to-fail parts that could cause expensive damage to your home, or utility bills.

Grinder pump planned maintenance, cleaning, and inspection:

This inspection covers 9 critical points within the grinder pump system and helps identify soon-to-fail parts that could cause expensive damage to your system. It consists of testing capacity in-tank components in panel, as well as minor debris removal and tank cleaning.

Preferred HVAC Membership - \$149

- No service or trip charges
- 5% off all repairs
- Same day service
- Annual AC Inspection & Tune Up
- Annual Heating Inspection

\$0.41 PER DAY

AC Inspection & Tune Up:

This inspection includes a tune up for all AC units and helps identify soon-to-fail parts that could cause expensive damage to your unit. We will wash the condenser coil, clean condensation drains, check refrigerant levels, check the thermostat settings and test calibration, check electrical connections, and fully inspect the unit to ensure all components are up to date and functioning properly. We will also check all air filters throughout your home and change if needed. **MUST BE 70 DEGREES OUTSIDE FOR THE TUNE UP/INSPECTION*

Heating Inspection:

This includes a full inspection of your heating unit to help identify soon-to-fail parts that could cause expensive damage to your unit. We will test the heat pump heating mode and defrost cycle, check electrical connections, and check the thermostat and test calibration.

**Covers a home with up to 2 HVAC units. Each additional HVAC unit is an extra \$35 annually.*
